Objective

As a current student with a strong foundation in programming and a passion for technology, I am seeking a co-op position at Honda to further develop my skills and contribute to the success of the organization. With my knowledge of programming languages and concepts, I am confident in my ability to quickly adapt to new environments and take on challenging projects in the automotive industry. I am eager to utilize my skills and aptitude to make meaningful contributions to Honda's tech team and drive the company forward.

Education

Bachelor's Degree in Computer Science

Lakehead University - Barrie/Orillia, ON

September 2022 to 2026

Currently in the Georgian segment of the Georgian-Lakehead Computer Science program

Diploma in Computer Programming

Georgian College Barrie

September 2022 to Present

As a computer programming student, I have completed a number of courses relevant to my coop/internship at Honda. My education has provided me with a strong foundation and exposure to a variety of programming languages and concepts including HTML/CSS/Javascript Java, C#, Python, and IoT using C++. I have also gained experience with database management systems, such as SQL, and have a strong footing in data structures, control flow, object oriented programming, readability, and more. Thanks to this solid base, commitment to lifelong learning, and passion for technology and automobiles alike, I believe I make a strong candidate for the opportunity to grow with the company.

Ontario Secondary School Diploma

Innisdale Secondary School - Barrie, ON

September 2016 to June 2020

Highlights of qualification

- Experience with Microsoft office
- Fluently Bilingual in English and Spanish
- Excellent time management skills and able to meet deadlines
- Excellent communication and interpersonal skills
- Work well independently and as part of a team
- Strong problem solving, planning and analytical skills

Work Experience

Prior to beginning my career path in computer programming and technology, I have developed a wide range of soft skills throughout my work experience, including strong problem-solving abilities, learning new software quickly and utilizing it effectively, the ability to think on my feet, excellent communication skills, and a dedication to providing high level service. Each of my past roles have helped me develop my personal character, organizational and time management skills, and the ability to collaborate well with others and achieve deadlines on my own. Each company is happy to reference my work integrity upon request.
